## 2022 McKean-Warren Winter Sporting Clays League

### TARGET PRESENTATION AND SCORING

NSCA Rules will apply:

1. Targets will be presented for attempt by the shooter and scored at each station in one or more of the following formats.

a. **Single Target.**

Two shots are allowed and the target will be scored dead if broken by either shot.

- 1) On a single target (full use of gun): If the target is missed with the first shot and an Ammo or gun malfunction occurs, preventing the second shot from being fired, the target will be reattempted. On the re-shoot, the shooter must intentionally miss the target on the first shot.

The second shot will count for either dead or lost. If the shooter breaks the first target on the first shot of the re-shoot in this scenario, the target will be scored as lost.

b. **Pairs.**

Only two shots are allowed. Pairs may be presented as report, following or simultaneous (true pair).

- 1) In simultaneous pairs (true pair) the shooter has the right to shoot either of the targets first.

If the shooter has missed the first target he may fire the second cartridge at the same target.

- 2) When shooting report or following pairs, the shooter will have the right, if missing the first target, to fire the second cartridge at the same target (the result being scored on the first target and the second target being scored as lost).

c. **Scoring Pairs**

- 1) Should the shooter break both targets with either the first or second shot, then the result will be scored as two hits.
- 2) In the event of a no Bird on a TRUE pair nothing can be established. Two good targets must be present to record the score. This will also apply for gun/ammunition malfunctions while shooting pairs.
- 3) In the event of a NO BIRD on the second target of a REPORT pair, the first bird will be established as dead or lost and the shooter will repeat the pair to establish the result of the second target. When repeating the pair, the shooter must make a legitimate attempt at the first target.
- 4) In the event of a "shooter malfunction" on the first bird of a report pair, the first bird will be established as lost and the shooter will repeat the pair to establish the result of the second target. When repeating the pair the shooter must make a legitimate attempt at the first target. The first target has already been established as lost and the result of the second target will be recorded.
